Bro George Padikara, addressing the 2nd World Education Leaders Forum, at Busan, South Korea on 11th July 2014.

Bro George, speaking on **‘New Paradigm in Leaders Training: Global Character Education’** said that “Young people today look for credible role models; Today’s educators have to become role models for the young. They need to be persons of good character who exemplify commitment to the value of what they teach. The character and integrity of the teacher is more fundamental than personality or personal style in class...” He concluded his address drawing lessons from the leadership training model of the greatest of all leaders – Jesus. “....Jesus chose very ordinary people as His disciples. Though they had neither wealth nor any special education, He was able to transform them into great leaders. Thus giving us the lesson that anyone and everyone have the potential for excellence, if only they are given the right opportunities and empowered to bring out their potentials to their fruition.”
